

A Message to the Majestic Community

Dear Majestic Family,

I'm writing to share an important update on where Majestic Chain Technologies is headed next.

We are in the process of launching our Layer 2 network, and alongside this milestone, we are building a dedicated platform where every Majestic holder will be able to verify their wallet holdings. Once verified, holders will be transferred the new token corresponding to our Layer 2 network.

Over the last three months, our team has been rigorously testing the Layer 2 in a controlled sandbox environment. This has been a deliberate and necessary step to ensure the issues experienced on the previous chain are identified, addressed, and resolved before this network reaches our community.

As part of this transition, we are also introducing a new featured wallet. This wallet carries the same core qualities you've come to trust from our previous wallet, now paired with upgraded features designed to better support your experience on the network going forward.

Verification Timeline

The verification process will officially begin during the final week of July 2026 and will remain open through September 2026, at which point the window will close. We encourage every holder to take part during this period to ensure a smooth transition to the new token and wallet.

More detailed instructions on how to verify your wallet, along with platform access, will be shared as we approach the launch date. We appreciate your continued trust and patience as we build this next chapter for Majestic.

Thank you for being part of this journey with us.

In service and vision,

Solomon Mwamba Wa Ngoy CEO & Founder, Majestic Chain Technologies
